# MUSTAFA POLAT

+90 531 569 5399 | pmustafa0@gmail.com | github.com/polat-mustafa

**Jr. Frontend Developer**

Actually, I'm Energy Engineer but I was wondering about Web development. I started by reading the documentation of the technologies I like. I'm interested in JavaScript and its frameworks. (React.js, Node.js etc.) I going to starting write in Medium blog. I add comments to the Readme file on my GitHub profile, so I discovered that I love to write.

## EDUCATION

**FIRAT UNİVERSITY** **Aug 2020**
**Elazig, Turkey**
*Energy Engineer*
- Remote-controlled, solar-powered irrigation project
- MATLAB Simulink

## PROJECTS

**#1 Pomodoro App,** **2022**
**https://github.com/polat-mustafa/Pomodoro-App**
- Technologies used: React.js, Fake Rest Api.
- Features: It is a study technique. 25-minute cards, completion info and ending tone.

**#2 Dodo, https://github.com/polat-mustafa/Dodo** **2022**
